

Digital Video System for Motorcycles

EDGE-MC

CAMERA FEATURES

- Supports 2 Cameras
- Weather-Proof
- Compact; Versatile Mounting Options

MICROPHONE FEATURES

- 900 MHz for least interference
- Clear up to 1000'
- Up to 10 Hours Talk Time
- Multichannel w/ Automatic Synchronization
- Rechargeable Li-ion Battery
- 3-Day Standby Time
21-Day Hibernate Mode

MONITOR FEATURES

- Dust-Resistant
- Glove Friendly Buttons
- Anti-Glare
- Two RFID Tags Included per Unit

HARD DRIVE OPTIONS

The system comes standard with a 32 GB internal failsafe SSD and a 32 GB removable SSD. 64 GB SSD available for internal and removable drive.

- Tested and Certified to MIL-Spec 810F
- Three Year Hardware Warranty
- Proven Reliability and Durability

3.5" Water-Resistant Monitor. A simple, effective interface for quick video tagging. Built-in RFID (Radio Frequency Identification) reader enables rapid login.

H.264 Video Format. Recording video in the most up-to-date industry H.264 standard means your video is the most portable.

Hands-Free System Updates. Wireless download (or removable hard drive) for software updates or system settings reduces the chance of human error and eliminates downtime during updates.

Fail-Safe Recording. The highest availability of video evidence out there: dual stream, fail-safe recording. Video is captured twice onto two independent media. We've got your back.

Smart Power Module. Sophisticated logic and built-in, uninterrupted power supply (UPS) regulate vehicle voltage and protect your motorcycle battery and the system's own power supply.

Wireless Capabilities (802.11 a/g/n and optional WiMax). Multiple standards provide flexibility for uploading and wireless updates.

Removable Solid-State Hard Drive offers long life cycles and fast read/write speeds. Great choice for video upload when wireless upload is unavailable.

Rugged 900 MHz, Bidirectional, Water-Resistant Mics. Clear to 1000 feet, talk time to 10 hours. Two agency-defined, programmable buttons offer multiple functions.

MIL-SPEC certification. So tough, it passes military specifications (MIL-SPEC-810-F). Built to take on the temperature, shock, and vibration of the harsh mobile environment.
